ICAP LESSON: Linking Careers to College Majors

Grade: 10

Materials: Computer Lab
             College Information Worksheet

Day 1:

- Have each student log in to their College in Colorado account.
- Each student should search for a career of interest by going to Career Planning => Explore Careers => Search **OR** choose their career results from their Basic Skills Survey by going to Career Planning => Learn About Yourself => Basic Skills Survey +> Previous Results.
- Have students identify the program or major that would lead to their chosen career (under the What To Learn Tab).
- Next, students will explore colleges using the programs they identified. Have them go to College Planning -> Explore Post Secondary Schools -> School Finder.
- They should narrow down their school choice by Programs and Majors offered as well as any other criteria they think is important.
- Have them complete the College Information Worksheet for 2 schools of their choice.
